

SANDVIK COROMANT

2026 TechDays

Inception to Inspection

Discover the future of manufacturing at TechDays 2026: *Inception to Inspection*

Join us at the Sandvik Coromant Center in Mebane, NC, where innovation, digital connectivity, and real-world expertise come together. Experience how advanced, data-driven technologies are transforming every stage of the manufacturing journey—from concept creation to final verification.

What to Expect

- Inspiring keynotes on the future of smart manufacturing
- Expert-led technical sessions with industry partners
- Hands-on demos addressing real-world challenges
- Exclusive tours of our state-of-the-art production facility
- Collaborative conversations that spark actionable ideas

Whether you're optimizing processes, adopting digital tools, or expanding your network, TechDays 2026 delivers insights that move manufacturing forward.

Join us and experience what's next—from inception to inspection.

PRESENTERS & SESSIONS LINE UP

Wednesday, May 6, 2026

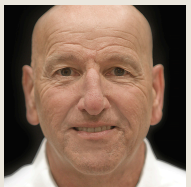

Mike Watkins & Dave Capkovitz
EBITDA Growth Systems

Technology is the Tool.
Managers Are the Multiplier Pt. 1

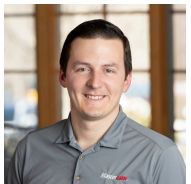

John Giraldo, Sandvik Coromant

Who We Are and What We Do:
The Engineering Projects Team
in Focus

Vic Baker, Gibbscam

Cooperation and Integration to
improve Production

Chad Chmura, Mastercam

Everpath™: Smarter Toolpaths
for Modern Tooling

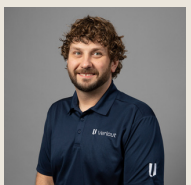

Keith Brake, Sandvik Coromant

Bundled Solutions, a wholistic
approach to addressing and
solving today's manufacturing
roadblocks.

Michael Ray, Metrologic DCS

What is Real Quality?

Gerald Ohlms, Vericut

Reveal hidden profit in your NC
Code with Vericut Optimizer

Thursday, May 7, 2026

Mike Watkins & Dave Capkovitz
EBITDA Growth Systems

Technology is the Tool. Managers
Are the Multiplier Pt. 2

Mark Briel & John Winter,
Sandvik Coromant

Power Skiving: From
Fundamentals to Production

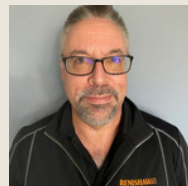

Simon Schneider, Okuma

The Automation Impact: Short-
term Wins to Long-term
Transformations

Mark Backus, Sandvik Coromant

Innovations in Machining:
Automated Tool Change and
Sensor-Embedded Tooling for
Increased Productivity

Dan Skulan, Renishaw

Precision at Scale: Integrating
Machining, Metrology,
Automation, and Truth-Based AI
for Competitive Advantage

Eric Nemitz, WENZEL

Closing the Loop: Integrating
Precision Metrology into the
Digital Manufacturing Value Chain

Joe Wilker, Mazak

Done-in-One Gear Manufacturing:
From First Cut to Final Inspection
